Sir:

On January 24, 2005, patentees filed a Certificate of Correction under 37 C.F.R. § 1.323 in the above-identified patent, together with supporting documentation. Patentees

requested correction of two errors in the above-identified patent.

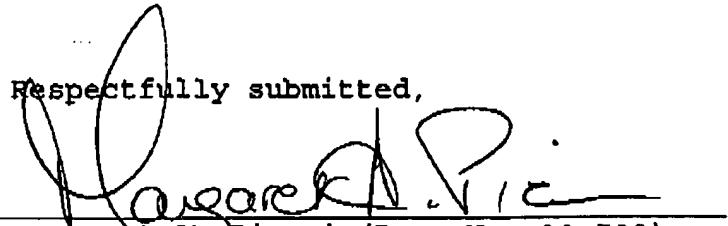

The first error related to the assignee information printed on the front page of the issued patent.

The second error related to an inadvertent typographical or clerical error in the Terminal Disclaimer submitted on April 6, 2004 in the application that issued as the above-identified patent.

The United States Patent and Trademark Office issued a Certificate of Correction in the above-identified patent on June 21, 2005. That Certificate reflected correction of only the first-cited error -- regarding the assignee information. To date, patentees' undersigned representatives have received no communication from the Patent and Trademark Office as to the requested correction of the second error -- regarding the Terminal Disclaimer. Patentees respectfully request that the Patent and Trademark Office communicate the current status of its action on the requested correction of that second error.

The Director is hereby authorized to charge payment of any fee required in connection with this Status Inquiry to Deposit Account No. 06-1075 (002546-0001). A duplicate copy of this Status Inquiry is enclosed.

Respectfully submitted,
